MINING, BUSINESS AND STOCKS

OHIO COPPER SELLS AT FOUR DOLLARS

Brokers Had Some Large Buying Orders for Bingham Stock Today.

UNCLE SAM WEAKENED

Rumor of a Dividend Reduction-Closing Quotations and

Sales.

Something over 2,000 shares of Ohio Copper were sold on the mining exchange this morning at prices ranging from \$3.90 up to \$4.05, and heavy buying orders were in the hands of brokers this afternoon, some of which came from an eastern source. That Ohio will go very much higher than it is now is the opinion expressed quite freely in mining and brokerage circles; but whether the advance will take place right away remains to be seen. It is said that some of the holders of the larger interests have pooled their stock-

holdings and that the market is now being cleared of the floating shares. This department of the "News" is not in position to state positively that such is the case; nevertheless things have occurred lately which point that have occurred lately which point that way. For several months there has been some quiet buying going on from time to time, yet when ever prices got up something would be done to depress the market. But now that the mine is being rapidly whipped into line for production and with the very flattering reports coming from the scene of operation, it is reasonable to presume that little stock will be bought under present prices.

prices.

Uncle Sam Consolidated sank a few points today on the strength of the report that the dividend will be reduced next month to 4 cents a share; which will probably be the case, unless the May Day company gets back into the dividend column again, one-half of the capital stock σ' the May Day being owned by the Uncle Sam Consolidated company. Iron Blossom took the tobogan again; but Sioux Consolidated managed to hold its own. managed to hold its own.

ELY'S COPPER OUTPUT.

Production Going on at Rate of 3,000,000 lb. Monthly.

The Steptoe smelter, near Ely, has for number of days maintained a production of a carload of copper a day producing at the rate of 3,000,000 pounds a month, most of them a little better The rate of production will probably be maintained during the balance of the month, before the end of which it will have gained some. Holding at it will have gained some. Holding at around this figure it will enable produc-tion of better than 2,000,000 pounds of copper for October, or nearly double the amount turned out in September, the second month of operation of the plant. At the concentrator the immense tonnage of ore that has been shoved in during the week from the mines has been taken care of in splendid

HOW COPPER IS DISPOSED OF

Breaking Away of United Metals Selling Company from The Guggenheims.

AN IMPORTANT CHANGE.

Where Utah Copper Output Goes to-Also That of Yampa Mines.

The breaking away from the United Metals Selling company of the American Smelting & Refining company and the establishment by the Guggenheims of a new copper selling agency which has taken on several contracts was the most important change made

during the past year in the manner of selling copper, says the Boston News Bureau. Through this change the United Metals Selling company lost about 30,600,000 pounds of copper a

in Agrans Senting Company of Sentially made up by the acquisition for a single year of the handling of the Utah Copper company's output. This contract is expected to revert next spring, however, to the American Smelting & Refining company interests, as the Guggenheims are flargely interested in the Utah company's stock.

The settlement of the differences arising between the United Metals Selling company and the American Metal company over the Greene Consolidated contract in favor of the former was a fortunate thing for that concern, for had the selling of this copper reverted to the American company by virtue of an agreement entered into between this agency and Col. Greene before the latter lost control of the Greene company, the United company would have lost the selling of 45,000,000 pounds a year at the present rate of the Camanea production.

The American Metal Co, has made

duction.

The American Metal Co, has made contracts with three new properties, the most important of which was that entered into with the Imperial Copper Co, which is now turning out at the rate of 9,000,000 pounds a year, but which will shortly double that output. The other two contracts were with the Douglas Copper Co., which has made a few small shipmens, and the Giroux, which has yet to start its mill and smelter.

The selling of the Oxford Copper Co, product changed from the American Metal Co, to the L. Vogelstein agency and the American also lost through the sinutdown of the plant approximately 10,000,000 pounds a year from the Teziutian Co. of Mexico.

Before the blowing in of its own smelter, the Imperial Co, had its product treated by Phelps, Dodge & Co, which firm also sold the copper.

L. Vogelstein & Co, took on the Orford Co, and the Tintic Co, output, which comes from the Yampa smelter. The Arizona Smelting, Bingham and Britannia properties being closed down this agency thereby lost some few million pounds.

Handling of the Mountain Copper Co. The American Metal Co. has made

lion pounds.

Handling of the Mountain Copper Co, output, which is now down to 4,000,000 pounds per annum from 30,000,000 pounds a few years ago, is done by Jardine Matthewson & Co, rather than by Vivian Bond & Co.

Charles Raht of New York is the selling agent for Calumet & Heela and Vic-

ing agent for Calumet & Hecla and Vic-toria Copper Co. Vice President Liv-ermore of the former corporation, however, has direct charge of the compa ny's sales.
The New York Metal Selling Co.

while having no contract for disposing of any individual copper, handles about 30,000,000 pounds a year, some of which is obtained from other agencies and some from producers which sell direct. There are also a number of large foreign metal selling companies which maintain offices in New York and which are instrumental in importing large amounts of copper, which are generally in an unrefined state. A recapitulation of the disposition of the copper produced by the mines of this country, Canada and Mexico, is

GIROUX CONSOLIDATED.

Management Giving Employment to More Men. The Giroux management during the

The Giroux management during the last few days has been very active in its endeavors to secure more men, pumpmen and mill and smelter men being particularly wanted, says the White Pine News. A number have already been engaged to take places in the mill, where preparations for starting up are under way, as also at the smelter. Beside ore smelted here, it is understood that the company is desirons of shipping a car of concenit is understood that the company is desirous of shipping a car of concentrates daily to smelter at Denver, negotiations to this end now being under way with the railroads. Production of ore will be principally from the Alpha shaft, where the rich ore on the 1,000 and 1,100 levels will make fancy smelting records. In the shaft all efforts are new best on completing the sta are now bent on completing the sta-tion on the 1,200, where the pumps will be put going as soon as possible to deliver the water with which it is ex-pected to operate the mill.

MAJESTIC MINES.

Boston Report on Financial and Other Conditions.

The Majestic Mines company, says a Boston publication, has completed the reorganization of the Majestic Copper tompany and the company is now suc-cessfully financed. Plans have been consummated for aggressive develop-

ment at the properties, which are located in Beaver county, Utah.

Prior to the reorganization the Majestic Copper company had debts aggregating \$20,000, besides first mortgage bonds amounting to \$514,000. The new company has purchased \$400,000 of these bonds, and has paid off all the old debts.

Alexander D. Moffat of Salt Lake

old debts.

Alexander D. Moffat of Salt Lake City, who, for 14 years was superintendent and manager of the Ontario properties and for the past three years superintendent of Newhouse mines and smelters, has been put in charge of the Majestic properties at Milford.

Contracts are now being made for exploring the Harrington-Hickory mine of the Majestic company with diamond drills. The ground will be explored in this way to prove up the vein that has been followed in the sinking of the shaft. The company owns its own the shaft. The company owns its own smelter at Milford and plans are under way that will make possible the hand-ling of its own ores at this smelter.

The new company is capitalized for 1,000,000 shares, par value \$5, of which 200,000 shares are in the treasurery, Before the slump in the metal a year ago, the company received for ore shipped during the year to the United States Smelting company, \$150,000, all of which was expended in development

work.

The company has 3,000 shareholders, a majority of whom have contributed an assessment of 15 cents a share in the reorganization. W. D. Elwell of the stock exchange firm of Wiggin & Elwell, is president of the new company, John W. Dick of Boston is vice president, and D. F. Flanders of this city is treasurer.

UTAH-ARIZONA CIRCULAR.

Shareholders Advised of Eucouraging Conditions at Mine.

A circular addressed to shareholders of the Utah Arizona Gold & Copper company was placed in the mails yes-terday afternoon, in which progress of development is reviewed in detail, and points out that conditions are such that the board of directors feel greatly encouraged over the outlook for the

tuture.

While many annoying delays have been encountered, at the same time this is almost invariably the case with any is almost invariably the case with any new mining enterprise and particularly if it involves the opening of a new district, with none of the conveniences usually to be had in older districts.

Development work is being centered at the present, time on the Blue Jay, Pride of the West and Golden Gate claims. The mill is ready for operation, or practically, so the delay in starting

or practically so, the delay in starting being caused by the delay in the shipment of fire brick to be used in completing the power plant. It is figured that the earning capacity of the mill will be from \$100 to \$300 per day.

SHOULD RECORD CLAIMS.

Note of Warning to Nevada Mine Owners Is Sounded,

Owners Is Sounded.

Reno, Nev. Oct. 22.—Col. Winfield Scott Proskey, one of the foremost mining operators of this state, sounds a note of warning to all mine owners and prospectors throughout Nevada. In his interview today he urged all owners of prospects and mines to at once record with the land commissioner at Washington their claims on patented land of the Central Pacific and the Southern Pacific railroads. He suggests not waiting for the federal court decision which is now pending to determine the Olinghouse, Mill City and other cases. He declares that unless these miners and prospectors file their claims before Jan. 3, 1999, all their rights to the claims will be forfeited to the railroad companies by the statute of limitation, which will give the railroads an unassallable title to the land in question.

in question.

J. H. Dennet, United States land commissioner, says he will put every available officer into the field to help available officer into the field to help the mine owners and prospectors pre-pare their cases for filing. The terri-tory which the railroad seems bent on securing comprises some of the rich-est mining lands in this state, and the most strenuous united efforts of gov-ernment officials and mining men will be put forward to frustrate the alleged grab.

CONCENTRATES.

W. H. Clark has returned from a trip to southern Utah where he spent a week on business.

Engineer Lew Humphries has re turned from a trip to the Yearington, Nevada, copper district. George Gunn has gone to Wyoming

to visit the properties of the Gunn-Quealy Coal company. General Manager D. C. Jackling of the Utah Copper company is expected to return from a trip of inspection to the Ray Copper company's mines

A. Fred Wey has gone to Los An geles on a business trip, but on the way will stop off to inspect the prop-erty of the Cherokee-Nevada Mining company in which he is interested. J R Greene of Salt Lake until re-

cently with the United States Smelting, has come to a position in the office of Nevada Consolidated.—White Pine General Superintendent Robert C Gemmell of the Utah Copper company states that while the recent snow

storm handicapped operations at its Bingham mines somewhat, yet the in-terference has not been serious. Miznah is brightening up materially, the prospects being good for a winter of considerably more activity than prevalent there in some time. Development work going on is reported at-tended by very satisfactory results and enthusiasm prevails in the camp.— White Pine News.

IRREGULAR TONE MARKET'S FEATURE

New York, Oct. 28 .- A decidedly irreg-New 10rk, Oct. 21.—A decidedly irreg-ular tone characterized the opening deal-ings in stocks today.

Moderate buying of the metal stocks

caused a general advance, Subsequent selling of Union Pacific weakened the railroad stocks, but the specialties were supported. Utah Copper gained 1%, American Smelting 14, National Lead-

American Smelting 14, National Leader and International Paper preferred L. Union Pacific gave way a point.

Renewed strength in the copper industrials was instrumental in pulling up the railroad list to last night's closing. Prices sagged again later, Baltimore & Ohio, Iowa Central and Wisconsin Central preferred lost L. The tone was firm at noon.

Bonds were steady.

at noon.

Bonds were steady.

Room traders sold small amount of the Standard Rallroad stocks after prices had recovered to yesterday's closing. This procedure hampered the advance in the metal stocks, but they did not react mouth.

much.
The market displayed renewed steadiness before 1 o'clock. American Smelting preferred improved 1 and Colorado Fuel

While fluctuations were narrow and restricted to the most prominent stocks, the tone was firm. The strength of the copper stocks and the supporting orders executed in the railroad stocks when they showed weakness induced the traders to buy on recessions. On advance, however, realizing sales appeared.

The market closed weak. The volume of the selling increased in the final hour and prices ran off more rapidly. Southern Pacific fell 1-3, Union Pacific 1½, and Reading 1 under last night. Lackawanna declined 5, Great Northern preferred 1½, Amalgamated Copper 1.

TRAFFIC BUREAU PLANS

They Are Considered at Meeting Held At the Commercial Club Today. Plans for actively operating the new

Commercial blub's freight bureau were

considered at length at a meeting of the bureau held at the Commercial club this afternoon. club this afternoon.

The meeting had much to consider in the way of minute details and consequently a long session was required to bring matters down to a voting form. That the bureau will be a big success, however, was not doubted by anyone, and its plan of campaign will be started for membership at once.

The soliciting committee will go out Missourl, Kansas & Texas. 30½
